

AMENDMENT NO. 1 MARCH 2022

TO

**IS 13506 : 2013 AUTOMOTIVE VEHICLES —
METHOD OF TEST FOR ARTICULATION**

(*First Revision*)

(Page 1, clause 2.1) — Substitute the following for the existing clause:

‘2.1 Height of Articulation

2.1.1 For 2 Axle Vehicles — It is the maximum height to which the diagonally opposite wheels to be raised till one of the remaining wheels starts lifting up or the suspension is compressed to the maximum limit allowed with touching/compression by the stoppers, if provided, up to the specified limits of suspension compression.

2.1.2 For Vehicles with More than 2 Axles — It is the maximum height to which the farthest and innermost diagonally opposite wheels to be raised till one of the remaining wheels starts lifting up or the suspension is compressed to the maximum limit allowed with touching/compression by the stoppers, if provided, up to the specified limits of suspension compression.’
