

**AMENDMENT NO. 1 DECEMBER 2025**  
**TO**  
**IS 17945 : 2022 FOOD FOR SPECIAL MEDICAL PURPOSE INTENDED FOR**  
**INFANTS — SPECIFICATION**

[Page 6, Table 2, Sl No. (iii), col (7)] — Delete ‘IS 5403 or’.

[Page 6, Table 2, Sl No. (vii), col (7)] — Substitute ‘IS 18349 (Part 1)’ for ‘ISO 15213’.

[Page 6, Table 2, Sl No. (ix), col (7)] — Substitute ‘IS 18357’ for ‘ISO 22964’.

[Page 6, Table 2, Sl No. (ix)] — Insert the following at the end:

| SI No. | Characteristic | Requirement   |     |             |     | Method of Test,<br>Ref to |
|--------|----------------|---------------|-----|-------------|-----|---------------------------|
|        |                | Sampling Plan |     | Limit (cfu) |     |                           |
|        |                | n             | c   | m           | M   |                           |
|        |                | (1)           | (2) | (3)         | (4) |                           |
| x)     | <i>E. coli</i> | 10            | 0   | Absent/g    | –   | IS 16424                  |

(Page 7, clause 5.16.1.5, line 2) — Substitute ‘IS 5887 (Part 5/Sec 1)’ for ‘IS 5887 (Part 5)’.

(Page 9 and 10, Annex A) — Delete the following references:

| ‘IS No.              | Title                                                                                                                                                   |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5403 : 1999          | Method for yeast and mould count of foodstuffs and animal feeds ( <i>first revision</i> )                                                               |
| 5887 (Part 5) : 1976 | Isolation, identification and enumeration of <i>Vibrio cholerae</i> and <i>Vibrio parahaemolyticus</i> ( <i>first revision</i> )                        |
| ISO 15213 : 2003     | Microbiology of food and animal feeding stuffs — Horizontal method for the enumeration of sulphite-reducing bacteria growing under anaerobic conditions |
| ISO 22964 : 2017     | Microbiology of the food chain — Horizontal method for the detection of <i>Cronobacter</i> spp.’                                                        |

(Page 9 and 10, Annex A) — Insert the following references at appropriate places:

| ‘IS No.                                          | Title                                                                                                                                                                                                                                                                                                       |
