

AMENDMENT NO. 1 JULY 2025

TO

**IS 18573 : 2024 COLD FORMED WELDED CARBON STEEL SQUARE AND
RECTANGULAR HOLLOW SECTIONS FOR MECHANICAL, GENERAL
ENGINEERING AND DECORATIVE PURPOSES — SPECIFICATION**

(Page 3, clause 11.7, para 1) — Substitute the following for the existing:

‘Twist shall be measured for square and rectangular sections as given in Fig. 6.’

(Page 5, clause 13.2, para 2) — Substitute the following for the existing:

‘Pre galvanized sheet or strip may be used for manufacturing hollow sections. In case of pre galvanised sheet or strip, zinc coating shall confirm the requirements of coatings specified in IS 277 excluding the coating of weld portion. The method for coating and mass of coating of external weld section shall be subject to mutual agreement between the purchaser and the manufacturer or as per the manufacturer’s standard.’

(Page 5, clause 15.2) — Substitute the following for the existing:

‘When tested in accordance with IS 1608 (Part 1), the tensile properties of cold formed sections shall be as given in Table 2. The yield strength values apply to Rp0.2 (0.2 percent proof strength), if the yield point stress is not clearly distinctive, otherwise the values apply to the lower yield strength.’
