

**AMENDMENT NO. 3 MAY 2002
TO
IS 11170 : 1985 SPECIFICATION FOR PERFORMANCE
REQUIREMENTS FOR CONSTANT SPEED
COMPRESSION IGNITION (DIESEL) ENGINES FOR
AGRICULTURAL PURPOSES (UP TO 20 kW)**

(Page 2, clause 3.5) — Insert the following new clause after 3.5:

3.6 Routine Production Acceptance Test

3.6.1 For routine production acceptance test, the rating test shall be of 8-hour duration on a well-run-in engine as per details given below.

3.6.1.1 Engine of IS rating A — Seven hours of continuous run at rated full load at the rated speed to be followed immediately by one hour run at 10% overload as specified in IS 10000 (Part 4) : 1980.

3.6.1.2 Engine of IS rating B — Eight hours of continuous run at the rated speed and rated full load without subjecting the engine to any overload as specified in IS 10000 (Part 4) : 1980.

3.6.2 The fuel consumption test shall be done as per 2.1.3(b) of IS 10000 (Part 8) : 1980.

3.6.3 The governing test shall be done as per IS 10000 (Part 7) : 1980.

3.6.4 The fuel consumption test and governing test shall be carried out only after the eight-hour rating test has been completed. The sequence of fuel consumption test and governing test may be interchanged depending on the convenience for testing.
