

AMENDMENT NO. 2 AUGUST 2017
TO
IS 14125 : 1994 DL-TARTARIC ACID, FOOD GRADE —
SPECIFICATION

[Page 1, *clause 2*] — Insert the following new entry at the end:

<i>IS No.</i>	<i>Title</i>
5762 : 1970	Methods for determination of melting point and melting range

(Page 1, *clause 3.2.3*) — Insert the following new clauses at the end:

‘3.2.4 Test for Absence of Oxalate

Nearly neutralize 10 ml of a 1 in 10 solution of the sample with ammonia TS, and add 10 ml of calcium sulphate TS. No turbidity is produced. This confirms the absence of oxalate.

3.2.5 Melting Range

The melting range of the product when tested as per the method given in IS 5762 shall be from 200°C to 206°C.’
