

AMENDMENT NO. 2 SEPTEMBER 1982

TO

IS:4329-1967 SPECIFICATION FOR MEASURING
(TRAVELLING) MICROSCOPE

Alterations

(Page 3, clause 1.1) - Substitute the following
for the existing clause:

'1.1 This standard covers the general and functional
requirements of measuring (travelling) microscope with
either one or two scales (one horizontal and other
vertical).'

(Page 3, clause 2.1) - Substitute the following
for the existing clause:

'2.1 Base - The horizontal part over which moves either
a horizontal carriage carrying the microscope body or a
horizontal carriage carrying the vertical pillar which
carries the microscope body.'

(Page 4, clause 2.4) - Substitute the following
for the existing clause:

'2.4 Horizontal Carriage - The part which slides along
the bed and carries either a vernier and a microscope
tube assembly or a vertical column with vernier and a
microscope body.'

(Page 4, clause 4.2) - Substitute the following
for the existing clause:

'4.2 The instrument shall be so designed that each
carriage moves smoothly in its guide-ways through its
full range.'

(Page 4, clause 4.6) - Substitute the following
for the existing clause:

'4.6 Microscope tube may be attached to either the
horizontal carriage or the vertical carriage having
a swivelling arrangement in horizontal as well as
vertical plane.'

(EDC 36)
