

**AMENDMENT NO. 1    JANUARY 2006**  
**TO**  
**IS 9781 : 1989    GLASS JARS FOR JAMS, JELLIES AND**  
**MARMALADES — SPECIFICATION**

*( First Revision )*

( Page 1, clause 2 ) — Substitute the following for the existing clause:

**2 REFERENCES**

The standards listed below contain provisions which through reference in this text, constitute provisions of this standard. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent editions of the standards indicated below:

| <i>IS No.</i>               | <i>Title</i>                                                                                                                                                                      |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2303 (Part 1/ Sec 1) : 1994 | Grading glass for alkalinity : Part 1 Hydrolytic resistance, Section 1 Hydrolytic resistance of glassgrains at 98°C — Method of test and classification ( <i>first revision</i> ) |
| 6654 : 1992                 | Glass containers — Glossary of terms ( <i>second revision</i> )                                                                                                                   |
| 6945 : 1973                 | Code of practice for packaging glass and glassware                                                                                                                                |
| 7511 (Part 3) : 1986        | Dimensions for neck finishes : Part 3 Roll-on thread non-pilferproof (RONPP) ( <i>first revision</i> )                                                                            |
| 7511 (Part 8) : 1986        | Dimensions for neck finishes : Part 8 Vacuum lug finish ( <i>first revision</i> )                                                                                                 |
| 10133 : 1982                | Specification for glass bottles — Dimensional relationships and tolerances                                                                                                        |
| 10497 : 1983                | Method of test for the determination of brimful capacity of glass containers by gravimetric method                                                                                |
| 11930 : 1986                | Methods of thermal shock tests for glass containers'                                                                                                                              |

( Page 1, clause 3, second line ) — Substitute 'IS 6654' for 'IS 6654 : 1972'.

**Amend No. 1 to IS 9781 : 1989**

( *Page 2, clause 8.1* ) — Substitute the following for the existing clause:

**‘8.1 Limit of Alkalinity**

The glass of the jars shall conform to Class HGB 3 of the glass when graded according to the method prescribed in IS 2303 (Part 1/ Sec 1).’

( CHD 10 )
