

AMENDMENT NO. 1 MAY 1993
TO
**IS 7206 (Part 1) : 1986 GENERAL REQUIREMENTS FOR
DIRECT CIRCULATION ROTARY DRILLING RIGS**
PART 1 WITH ROTARY TABLE

(First Revision)

(Page 2, clause 3.3.2.4, first sentence) — Substitute the following for the existing sentence:

“The material used in the construction of mast shall conform to IS 226 : 1975 ‘Structural steel (standard quality) (*fifth revision*)’ or steel tubes conforming to IS 1161 : 1979 ‘Steel tubes for structural purposes (*third revision*)’ or steel tubes conforming to IS 3601 : 1984 ‘Steel tubes for mechanical and general engineering purposes (*first revision*)’.”

(Page 4, clause 3.3.3.5) — Insert the following new clause after 3.3.3.5:

‘3.3.3.6 All draw work shall be tested to demonstrate that the clutch system of draw work is capable of lifting the hook load specified and have sufficient capacity to hold the hook load specified.’

(Page 4, clause 3.3.4.1, lines 10 and 11) — Substitute:

‘The manufacturer shall specify the speed reduction from the pinion shaft to the table.’

for

‘The speed reduction from the pinion shaft to the table is to the order of 3 : 1 or 4 : 1.’

(Page 5, clause 3.3.6, second sentence) — Substitute ‘if’ for ‘so’.

(Page 5, clause 3.3.8.2, line 6) — Delete the following matter:

‘and shall conform to IS 9201 : 1979 ‘Pumps for handling slurry.’

(Page 6, clause 4.1) — Substitute the following for the existing matter at SI No. 10 :

‘10) One set of rotary tongs to handle drill pipes;’

(Page 8, clause 6, Sl No. 16 to 24) — Substitute the following for the existing matter:

- '16) Overall height of the mast in down position;
- 17) Overall length of the mast in down position, axle load, wheel base, total length and width of the chassis and other general dimensions may be provided. However, these aspects shall be such as to meet the statutory motor vehicle rules and regulations;
- 18) The physical and chemical properties of the drill pipes, drill collar and Kelly; and
- 19) Detailed operating instructions manual and parts catalogue of the equipments, such as:
 - i) functional details of the various instruments installed;
 - ii) a sketch diagram of the power transmission;
 - iii) any other special features that are incorporated in the design and construction of the drilling rig;
 - iv) recommended servicing system; and
 - v) trouble shooting and remedy chart for all the major components.'
