

AMENDMENT NO. 4 MAY 2002
TO
IS 10001 : 1981 SPECIFICATION FOR PERFORMANCE
REQUIREMENTS FOR CONSTANT SPEED
COMPRESSION IGNITION (DIESEL) ENGINES FOR
GENERAL PURPOSES (UP TO 20 kW)

(Page 2, clause 3.5) — Insert the following new clause after 3.5:

3.6 Routine Production Acceptance Test

3.6.1 For routine production acceptance test, the rating test shall be of 8-hour duration on a well-run-in engine as per details given below:

3.6.1.1 Engine of IS rating A — Seven hours of continuous run at rated full load at the rated speed to be followed immediately by one hour run at 10 percent overload as specified in IS 10000 (Part IV): 1980.

3.6.1.2 Engine of IS rating B — Eight hours of continuous run at the rated speed and rated full load without subjecting the engine to any overload as specified in IS 10000 (Part IV) : 1980.

3.6.2 The fuel consumption test shall be done as per 2.1.3(b) of IS 10000 (Part VIII) : 1980.

3.6.3 The governing test shall be done as per IS 10000 (Part VII): 1980.

3.6.4 The fuel consumption test and governing test shall be carried out only after the 8-hour rating test has been completed. The sequence of fuel consumption test and governing test may be interchanged depending on the convenience for testing.

(IED 9)
