

AMENDMENT NO. 1 OCTOBER 2024
TO
IS 3566 : 2023 TEXTILES — VISCOSE RAYON CUT STAPLE (SPUN)
YARN — SPECIFICATION
(Second Revision)

(Foreword, para 2, sentence 1) — Substitute the following for existing:

‘Viscose cut staple spun yarn is a type of yarn manufactured from ring spinning, airjet spinning and air vortex spinning of viscose staple fibres.’

(Page 1, clause 1.1) — Substitute the following for existing:

‘**1.1** This standard specifies the requirement of 100 percent viscose cut staple ring spun, air vortex spun, and airjet spun yarn.’

(Page 1, clause 3.4) — Substitute the following for existing:

‘**3.4 Airjet Spinning** — Airjet spinning is a type of open-end spinning, which is a method used to produce yarn from staple fibres. In this spinning process, drafted fibres are introduced into a spindle by high-speed airflow to insert twist into the yarn.’

(Page 1, clause 3.5) — Insert the following after **3.5**:

‘**3.6 Air Vortex Spinning** — Air vortex spinning is a textile yarn manufacturing technique that utilizes the air vortex to impart twist in yarn. In this process, staple fibers are subjected to high-speed air currents formed by two nozzles creating vortexes in opposite direction.’

(Page 1, clause 4) — Insert the following after the clause and renumber the existing clause as **4.1**:

‘4.2 Conditioning and Testing

The test specimens shall be conditioned in the standard atmosphere of 27 °C ± 2 °C temperature and 65 percent ± 4 percent relative humidity.’

(Page 1, clause 5.1, title) — Substitute ‘Airjet’ for ‘Vortex/Airjet.’

(Page 1, clause 5.1, line 1) — Substitute ‘Airjet’ for ‘Vortex/Airjet.’

(Page 2, Table 1, title) — Substitute ‘Airjet’ for ‘Vortex/Airjet.’

(Page 3, clause 5.2) — Insert the following after **5.2** and renumber the subsequent clauses:

‘5.3 Viscose Air Vortex Spun Yarn

Amendment No.1 to IS 3566 : 2023

(Page 4, clause 5.3, sentence 1) — Substitute the following for existing:

‘The single yarn used for producing multifold yarn shall satisfy the requirements specified in 5.1, 5.2 and 5.3.’

(Page 4, clause 5.3.6) — Substitute the following for existing:

‘The requirement for hairiness index as specified in SI No. (x) of Table 1, SI No. (xi) of Table 2 and SI No. (x) of Table 3 shall be applicable for airjet multifold yarn, ring multifold yarn and air vortex multifold yarn respectively. The hairiness shall be tested as per the method prescribed in Annex C.’
