

AMENDMENT NO. 1    DECEMBER 1979  
TO  
IS: 3686-1966    SPECIFICATION FOR STUDENT-TYPE MICROSCOPE

Alterations

(*Page 5, clause 4.6*) - Substitute the following for the existing clause:

'4.6 The case carrying the microscope shall be of well-seasoned wood or any other suitable material. When made of wood, the case shall be complete with lock and key arrangement, a suitable locking screw for securing the microscope and a cross piece to retain it in position during transit. The case carrying the microscope shall have suitable internal receptacles for holding the eye-pieces, objectives and accessories and may be provided with a carrying handle at the top. It should contain a cleaning brush and a bag of silica gel (regenerated) which should be suitably placed inside the case carrying the microscope.'

(*Page 8, clause 8.2, first sentence*) - Substitute the following for the existing sentence:

'All the objectives shall be placed in cylindrical containers which, in turn, shall be held in a suitable receptacle inside the box of the microscope.'

(*Page 8, clause 8.9*) - Substitute the following for the existing clause:

'8.9 The box along with its contents shall be properly secured during transit.'
