

AMENDMENT NO. 2 SEPTEMBER 1999
TO
IS 3099 (PARTS 1 AND 2) : 1992 MICROSCOPES –
SLIPS AND SLIDES - SPECIFICATION
PART 1 MICROSCOPE SUPS
PART 2 MICROSCOPE SLIDES
(First Revision)

(Page 1, clause 5) - Substitute the following for the existing clause:

'5 SURFACE FINISH AND EDGE QUALITY

5.1 Surface Finish

The surface of the cover slips shall be fire polished (or equivalent) and shall be free from pits, nicks, scratches and other surface irregularities when viewed at 5 X magnifications.

5.2 Edge Quality

Edges of the cover slips shall be free from sharp edges and chippings.'

(Page 2, clause 7) - Substitute the following for the existing clause:

'7 PACKAGING

Cover slips shall be supplied in cartons of multiples of 50 pieces or of 100 pieces. All the slips in the carton shall preferably be of same size so as to prevent damage during transit or storage due to surface abrasion or action likely to cause impairment of the transmitting surface. Packaging materials shall be free from chemical that may cause corrosion of the surfaces.'

(Page 4, clause 9.2) - Substitute the following for the existing clause:

9.2 Microscope slides and cover slips shall be packed in such a way that no damage will be incurred during transport or storage by surface abrasion or other causes likely to impair the transmitting surface. Packaging materials shall be free from chemicals that would cause corrosion of the surfaces.

Amend No.2 to IS 3099 (Parts 1 and 2) : 1992

For tropical condition, microscopes slides shall be packed in way that will substantially exclude moisture so that no attack takes place on the surface of the slides.

NOTE - For example, a suitable method might be interleaving with natural tissue paper, or incorporating a desiccant in the box prior to seal with a impervious wrapping.'

(LM 20)
