

AMENDMENT NO. 1 AUGUST 1987

TO

IS : 4158 - 1985 SPECIFICATION FOR SOLID EMBEDDED
TYPE ELECTRIC HEATING ELEMENTS

(First Revision)

(Page 6, clause 7) Renumber this clause as 7.1 and add the following after 7.1(c) and renumber the subsequent item accordingly:

'd) Thermal efficiency, and'

(Page 11, clause 102) Substitute 'Thermal Efficiency' for the existing heading of the clause.

(Page 11, clause 102) Renumber the existing clause as 102.1 and add the following new clause after 102.1:

'102.2 In case the thermal efficiency marked on the heating element is more than 75 percent, a tolerance of 10 percent shall be allowed on this value subject to the provision that the actual efficiency shall in no case fall below 75 percent.'
