

AMENDMENT NO. 1 FEBRUARY 2006
TO
IS 8122 (PART 2) : 2000 COMBINE-
HARVESTER-THRESHER — TEST CODE
PART 2 PERFORMANCE TESTS

(First Revision)

(First cover page, second cover page and page 1, Title) — Substitute ‘Combine-Harvester’ for ‘Combine-Harvester-Thresher’ and in the text wherever occurs .

(Page 4, clause 7.1) — Substitute the following for the existing text:

The combine shall be operated under the prevailing crop and field condition preferably meeting the requirements of 5.2 of IS 8122 (Part 1) for a minimum of 100 hours with minimum of 30 hours test for any crop recommended by the manufacturer.

NOTES

1 As far as possible, attempts should be made to complete the test in one year. However part of work/test may be carried over to the following year if required range of conditions cannot be obtained in a single season.

2 In case the combine is meant for only two crops, such as wheat and paddy, the total period of operation shall be minimum of 100 hours for these two crops only. In case of single crop, it shall be tested for minimum 100 hours.
