

**AMENDMENT NO. 1 FEBRUARY 2000
TO
IS 10149 : 1982 POSITIVE LIST OF CONSTITUENTS OF
STYRENE POLYMERS IN CONTACT WITH
FOODSTUFFS, PHARMACEUTICALS AND DRINKING
WATER**

(Cover pages 1 and 3, Title) — Substitute the following for the existing:

**‘POSITIVE LIST OF CONSTITUENTS OF
POLYSTYRENE (CRYSTAL AND HIGH IMPACT) IN
CONTACT WITH FOODSTUFFS, PHARMACEUTICALS
AND DRINKING WATER’**

(Page 5, Scope, line 1) — Substitute ‘polystyrene (crystal and high impact) material’ for ‘styrene polymers’.

(Pages 5 and 6, clause 2.1) — Substitute the following for the existing:

‘For the purpose of this standard, the definitions of polystyrene materials shall mean:

- a) Homo polymers of styrene produced by the polymerization of styrene;
- b) Rubber modified polystyrene consisting of basic polymers produced by combining styrene-butadiene copolymers and/or poly-butadiene with polystyrene either during or after polymerization of the polystyrene, such that the finished basic polymers contain not less than 75 percent by mass of total polymer units derived from styrene monomer.
- c) Mixtures of the products listed in (a) and (b) above.’

(Page 6, clause 3.1, line 1)— Substitute ‘polystyrene materials’ for ‘styrene polymers’.

(Page 6, clause 3.2, line 2) — Substitute ‘0.1’ for ‘0.2’.

(PCD 12)
